

Glue Epoxy Card

GE-ID, GE-IC

Application

GE-ID
125KHzGE-IC
13.56MHZ

- 1) Mobile wallet (mobile payment)
- 2) Smart posters
- 3) Access Control System
- 4) Electronic ticket vending machines
- 5) Parking meters
- 6) Personnel identification
- 7) Members of stored-value consumption management

Specifications

Material	Antenna Material	Aluminium foil
	Surface material	PVC/PET/ABS etc
Chip Available	S50, Ultralight, UltralightC, ntag203, TK4100	
RFID Parameters	Frequency	13.56Mhz or 125KHz
	Protocol	ISO 14443A
	Operation distance	1~10cm(depend on reader)
	User memory	depend on chip
	R/W	Yes
	Data retention	>10 years
Demension	Size	26*42mm or customized
Crafts	UID Code	laser printing
Printing	Custom logo printing/Silk-screen printing
