

## Access Power Supply AC110V-240V with DC12V / 5A

### PS-200W

## Specifications

|                |                                               |                  |                               |
|----------------|-----------------------------------------------|------------------|-------------------------------|
| S4A Model      | PS-200W                                       | Standard Design  | Steel Materail, Painted       |
| Product Name   | Access Control Power Supply                   | Protect Safely   | Short Circuit protection      |
| Input Voltage  | AC110-240V / 50Hz                             | Suitable For     | Access control, Electric lock |
| Output Voltage | DC12V; NO/NC / 5A                             | Unit Weight      | 1.35KG0.3A                    |
| Output Contact | Access control, Electric Lock, Release Button | Standard Package | 30PCS                         |
| Time Relay     | 0~15sec                                       | Carton Weight    | 40KG                          |
